INTRODUCTION

Our Rightful Place (ORP) is the epicenter of Leadership, Black Womanhood, Consciousness & Sisterhood.

We are devoted to ensuring that Black Women and those that love US are equipped with the tools to tap into our power within and collectively to navigate systems that have been traumatizing and harmful to our existence. We ARE Black Women, who lead, advocate and change the world for the better through Community Building, Relationship Building, Engagement, Advocacy, Policy and Practice Change, & Political, Economic, and Social Justice.

We offer Strategic Planning, Leadership Coaching, Event Planning, Curriculum Development, Curation of Events, Program Creation & Coordination Facilitation and Community Engagement.

We are also home of the Sacramento Sister Circle, an organization under the umbrella of ORP. With an online membership of 10,000+, it is a network for Black Women to come together for positive dialogue, sharing our stories, building strong relationships, and creating an open and safe space for us to become better leaders, mothers, allies, friends, and WOMEN.

OUR FOUNDATIONAL PILLARS

HEALTH & WELLNESS

We must care for ourselves physically, mentally, emotionally and spiritually so we be our best selves and fulfill our chosen destinies.

MENTORSHIP

We must provide mentorship to younger women and girls. We are role models for self-esteem and empowerment.

FUN & JOY

We must collectively support fun activities that uplift, encourage, and strengthen us as women.

FINANCIAL INDEPENDENCE

We seek financial independence and abundance through educating ourselves and uncovering how financial systems work so we can make informed decisions about how to take control of our finances and grassroots & collective fundraising.

OUR FOUNDATIONAL PILLARS

STUDY

Through reading, teaching, historical resou and cultural exchanges, we gain knowledge and lessons of our Sheroes past, present & future. We actively dismantle the stereotypes and the negative portrayal of Black Women.

POLITICAL ENGAGEMENT

We must be politically aware and engaged in local, regional & national politics. We are social change agents that advocate for the issues that affect our lives and our communitie.

BLACK FEMICIDE

It is reported at least every 8 hours a year Black Women and Girls are killed in the United States. Violence and the Erasure of Black Women is at epidemic levels. This historically has been constantly swept under the rug and requires us as Black Women to Stand Up, Speak Out, and share our stories. Our Lives depend on protecting and supporting each other.
